The Long-Stanton family of companies will provide you with the information you need to decide if you would benefit from manufacturing your stamped, fabricated, rubber and plastic molded and machined parts at one of our plants in the U.S. or China.

Long-Stanton Manufacturing, Inc. - ISO 9000:2001 with 66,000 sq. ft. of dedicated manufacturing space. Our full-service facility can take your part from design, to production to Just-In-Time delivery. This Tier II Supplier to Toyota also serves as an OEM to a number of Fortune 500 companies. Whether you need 50 parts or 5MM parts per year, we can help! We offer inventory management, prototypes, and a lifetime guarantee on L/S-made tools and dies.

Hamilton, OH USA

Long-Stanton - Asia - Our wholly-owned, full-service facility opened in 2004. It specializes in CNC machining, tooling, metal stamping, precision sheet metal forming, welding, tube fabrication, polishing, and assembly. It combines the best of both Western and Eastern manufacturing cultures. This division is approaching \$1MM in orders annually.

Changzhou, China

LS & Lee - QS 9000 - a full-service, bilingual, bicultural manufacturer with plants located throughout China and the U.S. LS & Lee specializes in simple to complex assemblies made from metal, rubber and plastic. We combine the best of both U.S. and Chinese business practices with a proven global supply chain management system.

Shanghai, China

Our China Headquarters is located in Shanghai's Baoshang City Industrial Park. This also serves as our Asia center for manufacturing, engineering, and design. Our U.S. Headquarters are located in South Amboy, New Jersey; and Hamilton, Ohio. LS & Lee is a Tier II Supplier to Toyota, Chrysler, Ford, GM, Nissan and Maytag. We have produced over 20MM parts at our Wuhan facility alone.

Bob Lucas

Our Vice President of Sales and Marketing, Bob Lucas, will provide you with over 25 years of all types of metal manufacturing experience.

"Long-Stanton will give you the best of both worlds. Send us your drawings and we will determine the location that will yield the lowest total cost. There are many challenges to working in China. We will help you bridge the gap while dealing with a trusted, American company that you know. You may reach me at bobl@longstanton.com or (513) 874-8020."
